

## What is ImmuNet?

ImmuneNet is Maryland's Immunization Information System (IIS), a confidential and secure vaccination database that is HIPAA-compliant.

ImmuneNet stores an individual's vaccination history and is a web-based tool for health care practitioners, pharmacists and schools to help keep patients and students vaccinated on-time and avoid under- or over-vaccination.

ImmuneNet information is available only to authorized users.

## Maryland ImmuNet Law

- Statute: §18-109(b) (Establishment)
- Statute: §18-109(d)(6)(l)3 (Reporting)
- Statute: §18-109(c) (Permissible use)
- COMAR: 10.06.03.04 (Information reported)
- COMAR: 10.06.03.05 (User agreement)
- COMAR: 10.06.03.07 (Permissible use)
- COMAR: 10.06.03.09 (Security)

Revised October 2019

MARYLAND DEPARTMENT OF HEALTH  
**Center for Immunization**

**Keeping Maryland Healthy: ImmuNet**

**Maryland's  
Immunization  
Information System**

# ImmuneNet ensures confidential, fast and secure records access.

## For Health Care Practitioners

ImmuneNet has benefits for health care practitioners and patients alike, including:

- Quick access to patients' consolidated vaccination history
- Vaccination services improvement, with reduced office wait time
- Prevention of missed or duplicate vaccinations, or vaccinations given out of series
- Reminder/recall feature to inform patients/parents of vaccination due dates
- Ready-to-print official vaccination records for patients
- Ability to determine office vaccination rates for children and adolescents
- Report to ImmuneNet automatically through EHR/EMR, saving staff time to report vaccinations\*

**\*As of October 2019, all vaccinations administered in Maryland are required to be reported to ImmuneNet.**

Enroll now: [health.maryland.gov/ImmuneNet](http://health.maryland.gov/ImmuneNet)

## For Parents and Patients

ImmuneNet is free, secure and easy to use.

**Register with MyIR at [myirmobile.com](http://myirmobile.com) to get your or your child's official ImmuneNet records for school, camp, travel, employment or going to a new health care practitioner.**

Go to [health.maryland.gov/ImmuneNet](http://health.maryland.gov/ImmuneNet) (click on 'For Public') to:

- Opt out of ImmuneNet by filling in an online opt-out form
- Request corrections to your ImmuneNet information with your healthcare providers or fill in an online record request form

## For Schools and Child Care Centers

ImmuneNet is the easiest way to manage student records and vaccinations required for attendance. Authorized users can look up child or student vaccination history by filling in an online ImmuneNet enrollment form.
